DATE: 22 December 1999

MEMORANDUM FOR CIF USERS

SUBJECT: Software Version Description (SVD) for Installation Support Module (ISM) Central Issue Facility (CIF) Interim Change Package (ICP) LA2-A09-04-01

1. Enclosed is ICP LA2-A09-04-01 which provides a formal change to the Central Issue Facility (CIF) ISM.
2. Acknowledgement of installation of this ICP must be made IAW instructions provided in Enclosure 1.
3. This memorandum certifies that the ISM subject software has been thoroughly tested, is considered to be a quality product, and is hereby authorized for release to a production environment.
4. Security Implications: NONE.

1. Scope.

1.1 Identification. This Software Version Description (SVD) applies to the Central Issue Facility (CIF) running on Army Standard Information Management System (ASIMS) and networked AIX version 4.2 operating system on UNIX platforms.

1.2 System Overview. CIF is part of the ISM Project that is an army-wide Major Automated Information System (MAIS) initiative. The primary objective of ISM is to enhance, through automation, installation management functions. ISM applications consist of standard procedures packaged into functional applications that automate as well as integrate day-to-day installation processes. ISM applications use the Installation Level Integrated Data Base (ILIDB), which is the central repository for data that is common to more than one ISM application, and various local databases that contain data elements unique to the individual ISM applications.

The purpose of the CIF ISM is to provide precise management of organizational clothing and individual equipment (OCIE) in a central issue facility. Benefits expected from using CIF include

improved overall property management, increased accuracy and timeliness of CIF information, and decreased administrative costs. CIF functions are computing and maintaining stockage levels, processing and documenting OCIE records, maintaining supply records, and preparing required reports.

1.3 Document Overview. This document provides the instructions necessary for the implementation of the formal Interim Change Package (ICP) LA2-A09-04-01 of CIF. It informs the users of the changes made to the system and provides Point of Contacts (POCs) to be contacted in case of problems.

2. Referenced Documents.

2.1 Referenced Documents. This paragraph has been tailored out.

3. Version Description.

3.1 Inventory of Materials Released. This paragraph has been tailored out.

3.2 Inventory of Software Contents. Hardware platform - ASIMS/ AIX OS users (installation supported). This change

Change Control Package Number: LA2-A09-04-01

package contains the following files.

	<u>PROGRAM</u>	<u>VERSION</u>	<u>UPDATE</u>
	cif_0401.cpio.Z	0400	21 December
1999			
	install_cif_0401	0400	21 December
1999			
	README.cif_0401	0400	21 December
1999			

3.3 Changes Installed.

3.3.1 Corrector Descriptions - Technical.

1. ECP-S/E LA2-S370-006
 - A. CYCLES: None.
 - B. PROGRAM: CIF
 - C. PROBLEM: The second page of the Browse option for processing Issues and Turn-Ins is not functional.
 - D. RESOLUTION: Modified code to allow the user to browse soldiers on the second page of the browse file.
 - E. ICP: LA2-A09-04-01.
2. ECP-S/E LA2-T044-011
 - A. CYCLES: None.
 - B. PROGRAM: CIF
 - C. PROBLEM: When a size change is made during the Direct Exchange process, the original sized item is left on the record as a "0" (zero) quantity.
 - D. RESOLUTION: Modified code to remove all records with zero on hand and authorized quantities after the DX transaction.
 - E. ICP: LA2-A09-04-01.

3.3.2 Corrector Descriptions - Functional. None

3.3.3 Summary of Changes.

- a. Copy library member changes.
 1. Changed: None.
 2. Deleted: None.
 3. Added: None.

Change Control Package Number: LA2-A09-04-01

b. Control library member changes.

1. Changed: None.
2. Deleted: None.
3. Added: None.

3.4 Adaptation Data. This paragraph has been tailored out.

3.5 Related Documents.

3.5.1 Technical Documentation Changes. A new AIX version of Software Center Operator Manual (SCOM), AISM 25-LA2-A09-AIX-SCOM dated 10 December 1999 has been issued. This current version of AISM 25-LA2-A09-AIX-SCOM may be obtained from:

U.S. Army Information Systems Software Center
Executive Software Systems Directorate
Attn: AMSEL-RD-SE-IS-ESC, Stop H-6.
Fort Belvoir, VA 22060-5576.

3.5.2 Functional Manual Changes. A new AIX version of Software User Manual (SUM), AISM 25-LA2-A09-AIX-SUM dated 01 December 1999 has been issued. This current version of AISM 25-LA2-A09-AIX-SUM may be obtained from:

U.S. Army Information Systems Software Center
Executive Software Systems Directorate
Attn: AMSEL-RD-SE-IS-ESC, Stop H-6.
Fort Belvoir, VA 22060-5576.

3.6 Installation Instructions. These instructions explain how to install CIF ICP LA2-A09-04-01 onto the host computer at the installations.

Pre-Install Procedure. Before beginning to install CIF ICP LA2-A09-04-01 onto the ISM host computer, follow this procedure to make sure you have the information you will need when installing.

STEP 1. Verify Oracle. The Oracle RDBMS must reside on the host and be on-line.

Install Procedure. This procedure installs ICP 04.01 for CIF R04.01 onto the ANSOC server. This portion of CIF R04.01 must be installed on each server at the ANSOC.

STEP 1: Make sure there is a login account and directory for

Change Control Package Number: LA2-A09-04-01

"CIF".

STEP 2: Make sure CID release 04.00 is already installed.

STEP 3: Login with the login name of "root".

STEP 4: Change directory to /tmp. Make a directory named "CIFICP.0401".

STEP 5: Change directory to /tmp/CIFICP.0401. Copy the following files to /tmp/CIFICP.0401.

cif_0401.cpio.Z	4479821	21 December 1999
install_cif_0401	2372	21 December 1999
README.cif_0401	1375	21 December 1999

STEP 6: Execute the following commands:

```
chmod 777 install_CIF_0401 <Enter>
./install_CIF_0401 <Enter>
```

STEP 7: The install_cif_0401 will:

- (1) Un-compress the CIF_0401.cpio.Z file. Then it will un-cpio the CIF_0401.cpio file into the home directory of user "CIF".
- (2) Change the ownership and mode of the files to the correct settings.
- (3) It will record all output(s) from each of the steps performed in a file named "CIF_0401.log" located in the /tmp/CIFICP.0401 directory.

NOTE: The resulting log, CIF_0401.log, should then be copied to the directory /files/home/staff/sdcw upon termination of the installation process. This resulting log should then be reviewed.

3.6.1 Installation Effective Date. This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.

3.6.2 Security Implications. This paragraph has been tailored out.

Change Control Package Number: LA2-A09-04-01

3.6.3 ANSOC Installation Instructions. All users receive the same baseline with change package number through e-mail and Status Tracking and Reporting System (STARS) Bulletin Board System (BBS). This change package contains the following files:

<u>Quantity</u>	<u>File ID</u>	<u>System</u>	<u>Change Package</u>
1	cif_0401.cpio.Z	AIX OS 4.2	LA2-A09-04-01
	README.cif_0401		
	install_cif_0401		

Ensure that all master file backups have been completed prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations. Users must not, repeat, must not, make changes to the files. Security impact: None.

3.6.4 Special Installation Instructions - All Users. None.

3.6.5 Point of Contact. If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3036.

3.6.6 Report of Implementation. Implementation of this change package must be reported by completing the change package implementation form. This report must be sent to Ft. Huachuca using Fax or mail.

3.7 Possible Problems and Known Errors. This paragraph has been tailored out.

4.0 Notes.

4.1 Notes. This paragraph has been tailored out.
